## Riverfront Development District Liquor License

### **Topic: Obtaining a Liquor License within the Downtown Aurora Municipal Riverfront Development District**

I hear that it is possible to apply for a 3-way license in parts of Downtown South Bend that only costs \$1,000. Is this true?

- Yes, within the boundaries of the defined Municipal Riverfront Development District.

What is a Municipal Riverfront Development District (District)?

- A district where 3-way licenses are made available to eligible establishments for \$1,000 as a way to spur development near a river.

How did Aurora find a way to create this District?

- A piece of state legislation made it available and the Common Council approved the District and with the goal of spurring development in the District.

Where can I see a map of the District?

- You can obtain a copy of the district map from the Clerk Treasurer's Office, Main Street Aurora, or from the City Manager. The map may also be found on the City's website at [www.aurora.in.us](http://www.aurora.in.us) – go to Government > City Ordinances, Zoning Map, & Permits.

Where can I find a copy of the local ordinance establishing the District?

- You can obtain a copy of the local ordinance from the Clerk Treasurer's Office, Main Street Aurora, or from the City Manager. The local ordinance may also be found on the City's website at [www.aurora.in.us](http://www.aurora.in.us) – go to Government > City Ordinances, Zoning Map, & Permits.

Does my business need to be located next to the river to be eligible?

- Your space can be up to 3 blocks or 1,500 feet from the river, as long as it is located within the defined Municipal Riverfront Development District boundaries.

Are there any locations within the District that might not be eligible?

- Yes. The same state restrictions apply within the District as outside the District. For instance, if your desired location falls within 200 feet of a church or a school, you will need to go through the variance process to see if you might be granted an exception.

Why isn't the District bigger?

1. The District was developed as tool to encourage the development in such a way that builds critical mass in a defined area.
2. The District had to meet certain criteria as defined by Indiana State Code such as be within 1,500 feet or three blocks from the river and fall within a redevelopment area.

What types of establishments was the District designed to attract?

- Dining, entertainment, and cultural establishments.

Is there any limit to the number of riverfront licenses that can be issued within the District?

- No. The idea behind the District is to further cement downtown as a destination for dining, culture, and entertainment by encouraging rather than limiting these types of establishments. There are, however, requirements above and beyond those set by the Alcohol and Tobacco Commission (ATC) that any business applying for a riverfront license must meet. Thus the limitations are not about numbers but type.

How will I know if my business concept is eligible?

- Review the eligibility requirements. You may also schedule a meeting with the City Manager to review the requirements and application process.

Who issues the license?

- The license is issued by the State of Indiana through the Alcohol and Tobacco Commission.

How much does a 3-way riverfront license cost?

- The current fee is \$1,000 payable to the State of Indiana.

Why is it a requirement that those with riverfront licenses join Main Street Aurora?

- A purpose of the District is to free up funds for marketing that would otherwise be spent on acquisition of the license itself. Joining the Aurora Main Street association as a business member provides a way helpful way to participate in co-op marketing efforts, events, and promotions with the best of the downtown businesses.

How much is it to join Main Street Aurora?

- As of January 2016, the business membership dues are \$\_\_\_\_\_ annually.

What are the steps to apply?

1. Check to see that your location is within the District and that you meet the local requirements.
