MEMO from the City Manager

Dear Business Owner and Resident,

The City of Aurora will be conducting a survey on Second Street Sept 11th & September 13th. Enclosed you will find a parking shut down plan for survey work. Please see notes below. There will be no parking on one side of each city block between 8 am to 5 pm per day for survey work. We ask that residents, business owners and staff, as well as, visitors seek alternate parking.

This 2018 roadway improvement project runs the full length of Second Street between US 50 and Judiciary Street with the Second Street city block between Main Street & Judiciary becoming a two-way street with parallel parking on the Gabbard Riverfront Park side. The rest of Second St. will remain one way. Our proposed Second St. streetscape project includes new ADA sidewalks and storefront transitions, crosswalks, curbs, street re-pavement, paved alley approaches and drainage. Funding for this project is contingent upon Community Crossings Grant Award.
