****COUNTY HIGHWAY STAFF SECTION****

Department of Transportation & I	Engineering
---	-------------

Culvert must be double wall plastic or corrugated metal

Driveway Installation Requirements:

Driving Directions (Nearest Address / Road intersection):

Highway Department Official

Date

DRIVEWAY PERMIT APPLICATION NOTICE:

I shall be responsible for the protection of the public and all utilities within the public right-of-way and to any and all installation in, and around, said pavement openings. If work done under this permit involves or endangers structures belonging to others, I shall immediately notify the adjacent property owner(s). At all times during the progress of the work, I shall provide adequate protection and passage for the traveling public. I must fill all pavement openings if they are to be left unattended. I understand that maintenance of the culvert is my responsibility--not the Dept. of Transportation & Engineering--in the event that the pipe becomes non- functioning for any reason. If this is a new driveway, I shall place 2 white flags marked "proposed driveway" at the edge of the road where the driveway is to physically connect with the county road. I understand that the Building Department, to ensure compliance of this permit, will do a final inspection of the driveway. A certificate of occupancy will NOT be issues unless the inspection passes. This permit may at any time be revoked or annulled by the transportation department for non-performance and / or noncompliance. Violations of, or noncompliance of said regulations are subject to penalties provided by law. As applicant, I attest that I have received and reviewed the 'Open Driveway Profile' for proper driveway installation.
